ENGINEERS REPORT FOR MAY 21ST, 2025 BOARD MEETING

Discussion items:

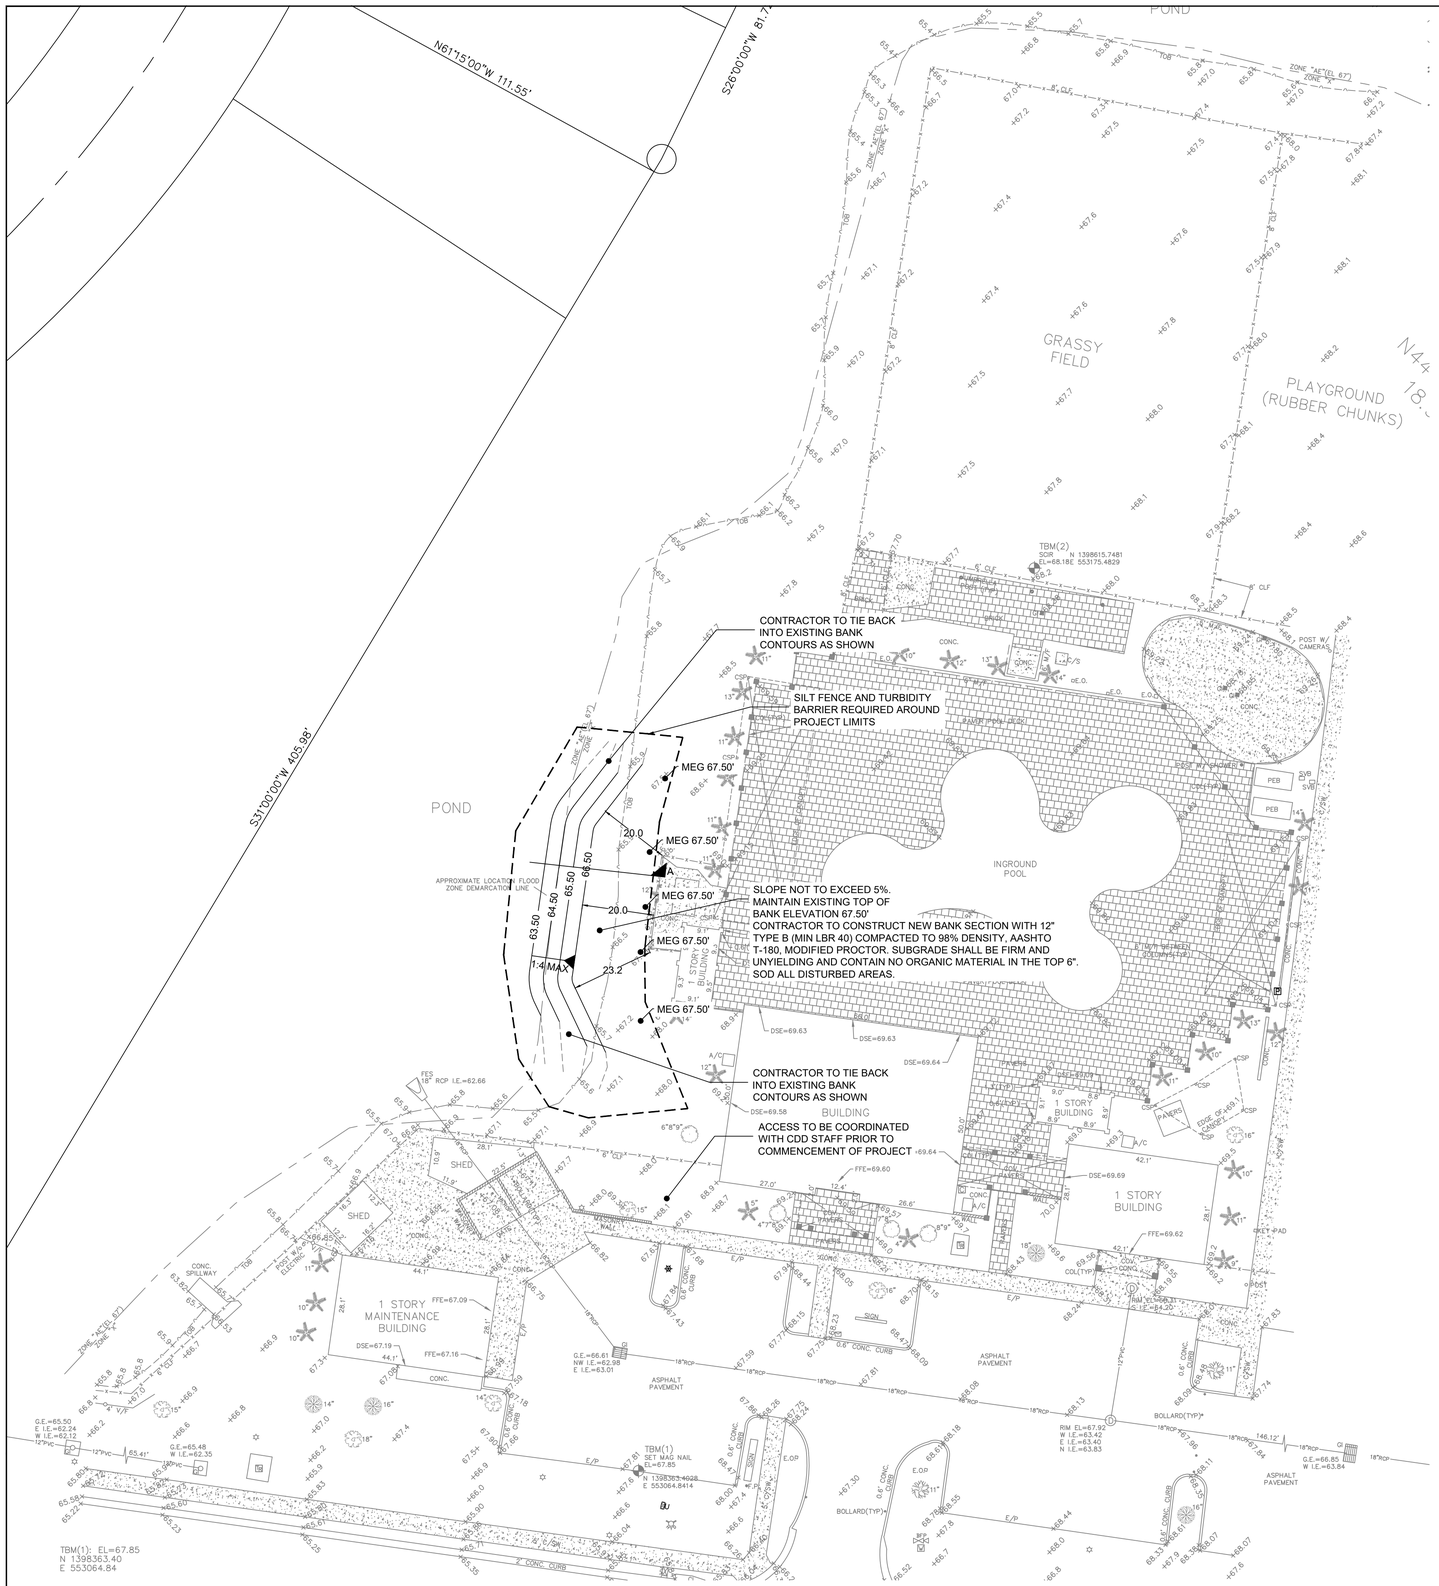

- **Building Construction on County Line Rd & Mansfield Blvd:** The architect is currently working on the design. Stephen from our firm conducted a call last week to discuss the plans with the architect and Mr. Palmer communicated that they are getting close to having the design plan ready for QC and presentation to the Board.

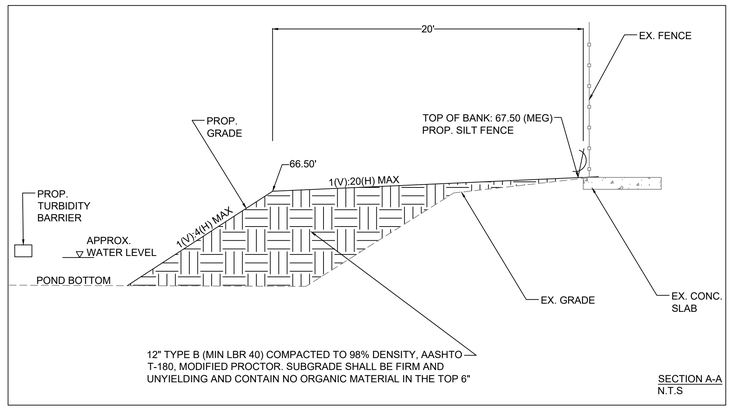

- **Warning Gate at Wrencrest Drive:** Since the last Board of Supervisors meeting, the re-submission of the application has been completed including an updated site plan, answers to the 26 comments received on the application from the County and all documentation associated with the public meeting and public notice that was requested. As of this writing on 5-20-25 at 1pm, there is no update from the County and the application record is currently listed on the County website as "In Review".

- **Lap Pool:** The design plans have been completed, and we have made a records request to SWFWMD for additional plans that are not available online to assist with the modification application. We are working on the application submission for the required modification to the environmental resource permit discussed with SWFWMD which will make it possible for us to construct the access road on the West side of the building to build and maintain the lap pool. We anticipate having the modification application submitted this week by 5-23-25.

- **Deer Run & Morningside County Conveyances:** We sent the County attorney the plats and additional information requested on March 16th with the request for an interlocal agreement as discussed. We are still awaiting their response. The Districts Counsel is has directed communication to the County attorney seeking feedback and resolution in response to the delay in response from the County.

- **Dog Park at Iverson:** We have sent the updated design to the planning and tech team at the County for feedback and a possible second pre-application meeting and they are currently reviewing. We are currently communicating with the tech team from the County for additional guidance on the application.
