RESOLUTION 2026-18

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE MEADOW POINTE II COMMUNITY DEVELOPMENT DISTRICT ADOPTING GOALS, OBJECTIVES, AND PERFORMANCE MEASURES AND STANDARDS; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Meadow Pointe II Community Development District (the "District") is a local unit of special-purpose government created and existing pursuant to Chapter 190, *Florida Statutes*; and

WHEREAS, effective July 1, 2024, the Florida Legislature adopted House Bill 7013, codified as Chapter 2024-136, Laws of Florida ("HB 7013") and creating Section 189.0694, Florida Statutes; and

WHEREAS, pursuant to HB 7013 and Section 189.0694, Florida Statutes, beginning October 1, 2024, the District shall establish goals and objectives for the District and create performance measures and standards to evaluate the District's achievement of those goals and objectives; and

WHEREAS, the District Manager has prepared the attached goals, objectives, and performance measures and standards and presented them to the Board of the District; and

WHEREAS, the District's Board of Supervisors ("Board") finds that it is in the best interests of the District to adopt by resolution the attached goals, objectives and performance measures and standards.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE MEADOW POINTE II COMMUNITY DEVELOPMENT DISTRICT:

SECTION 1. The recitals so stated are true and correct and by this reference are incorporated into and form a material part of this Resolution.

SECTION 2. The District Board of Supervisors hereby adopts the goals, objectives and performance measures and standards as provided in **Exhibit A.** The District Manager shall take all actions to comply with Section 189.0694, Florida Statutes, and shall prepare an annual report regarding the District's success or failure in achieving the adopted goals and objectives for consideration by the Board of the District.

SECTION 3. If any provision of this resolution is held to be illegal or invalid, the other provisions shall remain in full force and effect.

SECTION 4. This resolution shall become effective upon its passage and shall remain in effect unless rescinded or repealed.

PASSED AND ADOPTED this **16th** day of **September** 2026.

RE: HB7013 – Special Districts Performance Measures and Standards

---

To enhance accountability and transparency, new regulations were established for all special districts, by the Florida Legislature, during its 2024 legislative session. Starting on October 1, 2024, or by the end of the first full fiscal year after its creation (whichever comes later), each special district must establish goals and objectives for each program and activity, as well as develop performance measures and standards to assess the achievement of these goals and objectives. Additionally, by December 1 each year (initial report due on December 1, 2026), each special district is required to publish an annual report on its website, detailing the goals and objectives achieved, the performance measures and standards used, and any goals or objectives that were not achieved.

District Management has identified the following key categories to focus on for Fiscal Year 2027 and develop statutorily compliant goals for each:

- Community Communication and Engagement
- Infrastructure and Facilities Maintenance
- Financial Transparency and Accountability

Additionally, special districts must provide an annual reporting form to share with the public that reflects whether the goals and objectives were met for the year. District Management has streamlined these requirements into a single document that meets both the statutory requirements for goal/objective setting and annual reporting.

The proposed goals/objectives and the annual reporting form are attached as exhibit A to this memo. District Management recommends that the Board of Supervisors adopt these goals and objectives to maintain compliance with HB7013 and further enhance its commitment to the accountability and transparency of the District.

MINUTES OF MEETING
MEADOW POINTE II
COMMUNITY DEVELOPMENT DISTRICT

The Workshop Meeting of the Board of Supervisors of the Meadow Pointe II Community Development District was held Wednesday, August 5, 2026 at 6:30 p.m., immediately following the adjournment of the regular Board meeting, at the Meadow Pointe II Clubhouse, located at 30051 County Line Road, Wesley Chapel, Florida 33543.

Present were:

John Picarelli	Chairperson
Robert Signoretti	Vice Chairperson
Kyle Molder	Assistant Secretary
Jamie Childers	Assistant Secretary
Justin Wright	Operations Manager

The following items were discussed during the August 5, 2026 Meadow Pointe II Community Development District Workshop; no motions, votes or actions were taken. Any action to be taken on the items listed below will occur at a regular meeting of the Board of Supervisors.

FIRST ORDER OF BUSINESS **Call to Order**

Mr. Picarelli called the workshop to order at 7:36 p.m.

SECOND ORDER OF BUSINESS **Items for Discussion**

A. Discussion on Amenities Policies

- Mr. Picarelli and the Board discussed the building materials, costs and operations of the new building. A lengthy discussion ensued.

B. Discussion on new Deed Restrictions being revised

- Ms. Childers discussed the draft deed restrictions with the Board and explained that the document provides additional clarity by organizing and labeling the various provisions into specific sections, making it easier to locate and review individual restrictions. For example, residents can reference the section pertaining to the garbage and trash receptacles to review the applicable requirements.

MEADOW POINTE II CDD

ENGINEERS REPORT FOR SEPTEMBER 16th 2026 BOARD MEETING

Discussion items:

New Building Construction – The following is the latest information from the last project team meetings on 09/11/26.

The project team met following the Board's approval to move forward with the approximately $3.95 million new building project. The architect is preparing the design services proposal, while AD Morgan will prepare its preconstruction/construction management proposal separately.

The team also discussed civil, geotechnical, landscaping, and stormwater needs. The goal is to keep landscaping and site improvements as cost-effective as possible while meeting County requirements. The civil engineer will also evaluate whether existing drainage infrastructure and the nearby pond can be utilized instead of constructing the small pond shown on the preliminary plans.

Once the design team is under contract, the project will move into design, and an updated project schedule and budget check will be developed. AD Morgan anticipates approximately six to seven weeks from completion of 100% construction documents to preparation of the GMP.

Lap Pool Construction – The following is the latest information from the last project team meeting on 09/11/2026.

The project team met to review the current design, schedule, and preliminary cost estimate for the lap pool expansion. The design team is finalizing the milestone schedule, while the contractor presented a current preliminary project estimate of approximately $4.37 million based on the drawings completed to date.

Because the estimate is higher than anticipated, the team is now focused on value engineering and reducing non-essential costs. Options being evaluated include simplifying the restroom building, potentially using a pre-engineered metal structure, while maintaining a more durable CMU construction for the pool equipment/chemical areas due to corrosion concerns. Landscaping and other non-essential improvements may also be reduced or completed separately.

The team will continue refining the design and cost-saving options before providing an updated cost estimate and project schedule to the Board.

Warning Gate at Wrencrest Drive: BDi has completed the updated plan set adding the items requested form the County and has prepared a draft comments response letter, laying out the comments and the responses to the comments received from the County on the application submission.

Dog Park Development: The District has received confirmation from Pasco County Current Planning that the proposed dog park improvements can proceed without requiring an amendment to the existing MPUD. Based on that determination, the project team has now shifted its focus to the Development Review and permitting process for the site. A follow-up request has been submitted to County Development Review staff seeking confirmation of the appropriate application and permitting pathway, including whether another pre-application meeting will be required, what additional drainage or stormwater information should be provided, and whether inclusion of the proposed parking area would affect the review requirements. The District currently has a conceptual site plan, grading concept, landscape plan, and irrigation plan available to support the County's review. Once direction is received from Development Review, the project team will finalize the required submittal documents and proceed with the applicable permitting process.

Meadow Pointe 2 Landscape Maintenance Report

Meadow Pointe 2 Landscape Maintenance Report

Monthly Maintenance Summary

During the past month, our landscape maintenance team has continued to focus on all routine mowing functions throughout the community, including common areas, common grounds, boulevards, and ponds.

Woodline Cutbacks

We have continued addressing woodline cutbacks in areas throughout the community. Completed and ongoing areas include:

- Wrencrest community
- Iverson Boulevard
- Beardsley Boulevard
- Colehaven Pond
- Vermillion Pond
- Mansfield Boulevard
- Longleaf
- County Line Road
- Morningmist Ponds
- Morningside Ponds

These cutbacks are being performed to maintain visibility, appearance, and accessibility while keeping the community's wooded areas properly maintained.

Bed Weed Control

Bed weed control continues to be one of our biggest challenges during this time of year. With the increased rainfall and moisture, weed growth has accelerated throughout the community. Our crews continue to address these areas as thoroughly and consistently as possible, including the removal of unwanted plant material and ongoing weed-control applications.

The upcoming mulch installation scheduled for **October** should provide additional support with weed suppression while also improving the overall appearance and consistency of the beds throughout the community. The fresh mulch will help create a cleaner, more finished

appearance while assisting with moisture retention and reducing the amount of sunlight reaching newly emerging weeds.

We will continue to monitor and treat the beds throughout the rainy season to maintain a clean and well-maintained appearance.

Flower Beds

The flower beds throughout the community are currently maintaining good color and overall appearance. We will continue routine maintenance and treatments to preserve their health and visual appeal.

Tree Maintenance

We will continue working on oak tree elevation throughout the community to improve clearance, appearance, and overall tree maintenance.

Turf and Plant Health

All turf areas were treated with fungicides and insecticides as part of our ongoing turf-management program. Flower beds were also treated with fertilizer and fungicides to support plant health and maintain their appearance during the rainy season.

Upcoming Plant Material Improvements

I will be providing proposals for areas with nonexistent or freeze-damaged plant material. These proposals will identify areas that are in need of replacement and/or renovation to improve the overall appearance and condition of the landscape.

OLM Inspection

The community received an **OLM inspection score of 91.5%** for the reporting period.

Overall

Our team will continue to focus on mowing, woodline cutbacks, bed weed control, tree elevation, turf and plant health, and general landscape appearance throughout the Meadow Pointe 2 community. With the continued rainy conditions, weed control will remain a primary focus as we work to maintain the community to the highest standard possible. The planned October mulch installation will also be an important improvement, helping us enhance the appearance of the community while providing additional assistance with ongoing weed control.

Thank You

Thank you for giving us the opportunity to be your landscape provider. We are glad to work together with you and truly appreciate your continued trust in us to care for the property’s landscape maintenance and ongoing needs. We value our partnership and look forward to continuing to provide quality service to the Meadow Pointe 2 community.

Respectfully,
